

Workflow Enhancements-26

- Change Button Colors in All Modules

-
- **Password Policy Enforce.**
 - Enforce password update on first login: user must set a new password before accessing Workflow.
 - Enforce password expiry every 60 days.
 - User should not be able to access Workflow until password is updated.
 - Provide an Admin Panel option to enable/disable password policy enforcement for selected users/departments.
 - **E-Signatures Enforcement**
 - E-Signature Enforcement
 - Enforce users to update E-Signature on first login (mandatory). for existing users also (One Time).
 - Provide validation to ensure signature is uploaded before proceeding with approvals.
 - **Standard Request Header Details**
 - **Approval Request Module / Waste Management / Artwork**
 - Request ID , Initiated By, Initiated On, Pending With (shown after request initiated in My Request, My Approvals & My Task (when assigned to someone))
 - **Approval Request Module**
 - Add an additional Description Box (as Resubmission Notes) that becomes mandatory when:
 - request is Returned to initiator, OR
 - initiator Resubmits the request
 - This section should clearly capture what changes were made during resubmission.
 - These notes should be visible to all pre/post approvers in the workflow history.
 - **Profile Picture Aspect Ratio Fix**
 - Profile picture is currently stretched due to incorrect scaling.
 - Maintain original aspect ratio so images display correctly without distortion.

- **Add → Waste Management**
 - Make uploaded waste data section scrollable within a fixed-height panel.
 - Display totals (e.g., total quantity/weight) outside the scrollable panel so totals remain visible.
 - Add Export Uploaded Data button (Excel export) for approvers/reviewers.
 - Validation on uploading wrong document format.
- **Account Creation - Email Intimation**
 - When a new user account is created (single or bulk), system should automatically send an email to the employee containing:
 - Workflow URL
 - Employee ID
 - Temporary password
 - First login instructions (password update required) & Signature Update
- **Default Module Rights (Department-based)**
 - Implement department-based default rights assignment:
 - When a new account is created, default module rights should be assigned automatically based on employee department.
 - Provide Admin Panel option to manage department-wise default rights mapping.
- **Delegation – History Visibility**
 - When delegation is active and a request is approved/rejected by the delegate:
 - The workflow history should display both:
 - Action Taken By (Delegate Name)
 - On Behalf Of (Original User Name)
 - Request history should remain visible for both users.
 - Example: Approved By: Osama Javed (On behalf of: Hazbar Khan)
- **Save as Draft - All Modules**
 - Add a Save as Draft option while creating a new approval request.
 - Draft requests should be saved under My Requests → Drafts.
 - User should be able to edit and submit the draft later.
 - When initiator saves a request as Draft, the system should save all entered inputs, including:
 - Subject
 - Description / Notes
 - Uploaded files (all file types)
 - Assigned users / approvers (sequence-wise)
 - Any other entered fields or selections
 - **Draft Visibility**
 - Draft requests should appear in My Requests → Drafts (initiator view).
 - **Draft Actions (Initiator)**
 - Initiator should have two options on drafted requests:
 - **A) Initiate Draft**
 - Request should resume from the same point where it was drafted.

- All fields should remain editable
 - Once initiated, request starts workflow normally.
- **B) Cancel Draft**
 - Draft request status changed to cancelled, and cannot be reinitiated.
 - Cancel request will not be visible in All Request section.
- **In Progress Request**
 - After Request initiated, initiator have option to view, withdraw request → My Request
 - **Withdraw:** after clicking on withdraw, initiator have option to View, Reinitiate, Cancel request
 - **Reinitiate:**
 - User can upload new file or change approver while Subject & Description remain locked (as todays functional)
 - **Cancel:** will do same as upper conditions.
- **Advance Report:** can be exported in Excel or PDF both option available
 - The report should allow filtering based on the following criteria:
 - Workflow
 - Subject (optional, should support specific text search and multiple text values)
 - Initiated By (should support multiple users)
 - Approved By (should support multiple users)
 - Date Range
 - Example
 - Workflow: Approval Request
 - Subject: Gate-1, Gate 1
 - Initiated By: All
 - Approved By: Osama Javed (12945), Taqweem Ahmed (12521)
 - Date Range: July 2025 to June 2026
 - Expected Output
 - The report should display all Approval Requests that:
 - contain “Gate-1” or “Gate 1” in the Subject
 - were initiated by any user
 - were approved by Osama Javed as well as Taqweem Ahmed
 - fall within the selected date range
- **Signature Certificate (Envelop Base)**
 - Need create new request option for Signatures on Documents from Home.

Welcome

Osama Javed
